

FEELING THE HEAT IN YOUR DATA CENTRE?
RUNNING OUT OF ROOM?
GETTING HOT SPOTS?
NEED MORE POWER?

+ 2 HOURS OF YOUR TIME

= A FREE DCIM REPORT covering the power, cooling, management and security issues for your data centre.

- Understand where the pinch points are and find some quick wins at low or even no cost.
- Assess hot spots, power consumption, UPS alarms, PUE values and energy management.
- Reclaim stranded capacity.
- Save significant operational costs.
- Find out how you could do more with less.

Book a free on365 environmental data centre audit today.

There's no catch, no strings and no hassle guaranteed.

Just impartial and expert advice from the leading software partner for Schneider Electric in the UK.
